Large Pointers 1.0

Over 80 additional pointers and cursors for those with visual or perceptual difficulties. Icon styles include animated, coloured, large, I-beams and circles.

The pointers have been designed at the ACE Centre, so if you have a need or a suggestion for a particular pointer style, please let them know.

Installation Instructions

- Download the 3.8MB self-extracting .exe file onto your hard disk by clicking [here](#) .
- Double-click on the downloaded SETUP.EXE file and follow the onscreen installation instructions.

Please note that some of the cursors featuring inverted colours may not work on some computers. A help file is added under Start - Program Files - ACE CENTRE - Cursors

To use the custom pointers:

- Double click on the icon labeled "Mouse" in the Windows control panel.
- Click on the tab labeled "Pointers".
- To change a pointer icon, highlight it (eg click on "Normal Select"), then click the button labelled "Browse". This should take you to the "Cursors" directory.
- Select the mouse pointer that you want to use and click on the "OK" button.

Other downloadable cursors

There's more large cursors available for free download at www.philip-henderson.co.uk

The freely downloadable Logitech "Mouse Software for PC" also features a scheme of large pointers (see www.logitech.com)
